

Carpenter Co. Acoustic Nonwovens

Leave the Noise Behind

- **Multiple Manufacturing Facilities Around the Country**
- **Shortest Lead Times in the Industry**
- **Capable of Producing Identical Material at Every Plant**
- **Custom Designs & Products Can be Produced for Specific Customer Applications**
- **Can be Utilized for Various Uses Such as Furniture, Heavy-Duty Mattresses and Pads, Flame Retardant Applications, Appliances and More**

Carpenter Co. introduces its line of prequalified acoustically rated highloft nonwovens. Carpenter's unmatched quality, efficiency, and manufacturing locations make us the clear choice for all of your acoustical and thermo-formable fiber needs. From coast to coast we are there when and where you need us. We are not just a supplier, we are your partner in development.

Carpenter Co. Acoustic Nonwovens

Grade Definitions

Highloft Grades (CA):

CA grades offer outstanding low frequency sound absorption at a low gram weight while maintaining superior high frequency sound absorption.

Scrim Backed Grades (CAS):

CAS grades available on request and tailored to your application and specifications.

Attachment Methods

High Volume Applications:

Ultrasonic welding, heat staking and gluing

Low Volume Applications:

Selectively placed pressure sensitive adhesive and hot melt.

Custom Specifications

Dedicated product development team and technical center allows custom tailored performance to meet your precise requirements.

Thickness:

6 mm to 127 mm

Weight:

75 GSM – 3,600 GSM

Temperatures:

Up to 230° F (110° C)

Grades

Grade	Thickness	Description
10CA	10 mm	Standard
14CA	14 mm	Standard
19CA	19 mm	Standard
25CA	25 mm	Standard
