And extraordinary people doing ordinary things.

It's insulation.
Roofing material.
Packaging.
Flotation.
Laminated products.
EIFS.
Architectural shapes.
Loose-Lok™
Geofoam.

It's our energy.
Our commitment.
Our resources.

It's what makes us special.

It's our independent spirit.

To us, every customer is our most important customer. We are dedicated to proving we can do it better.

It's the strength of a \$1 billion global company.

When managing the logistics of a complex project, bigger is often better. Carpenter's reach extends worldwide, and our EPS division, with four major manufacturing facilities, is one of the largest in the U.S.

It's the way in which we provide value to our customers.

Our goal is to make each transaction a positive one, and to help you make the right choice for your every EPS need.

It's our single-minded commitment to get it right, the first time.

Simply put, we do whatever it takes to get the right product to the customer at the right time and to the right place.

It's our conviction that "quality" is more than a buzzword.

We excel at every aspect of our business, from acquiring our raw materials to delivering our products. We offer you consistent quality, reliable supply and the security of knowing you'll have the product you need, just when you need it.

It's more than 50 years of experience.

Carpenter began manufacturing comfort cushioning over 50 years ago. Although we've broadened our product range, we've maintained our sharp focus. Our core businesses remain our *only* business.

It's our strength, our size, and our resources.

We believe enhancing the quality of our products enhances the quality of life. Our Technical Center is at the heart of this commitment. It is the place that drives our research and development, and our standing as *the* innovator in the industry.

It's our track record of just-in-time delivery.

Our manufacturing facilities are strategically located, each serving its own customer base. Their size and capacity allows us pre-inventory capabilities and just-in-time delivery.

It's our success stories.

Our current customers are our best references. We make it our business to create a win-win situation for them every day.

It's our quick turn-around time.

Our multiple plants operate with multiple shifts and use the industry's largest fleet of company-owned trucks to ensure that delivery isn't merely on-time, but just-in-time.

It's the difference between Carpenter and other suppliers of EPS.

You deserve the best. At Carpenter it's our people who are *"making a difference"*.
