

Carpenter Co. Richpak® Polyurethane Foam

Innovations in Packaging Foam from the World Leader

CONSIDER THE CREDENTIALS OF CARPENTER CO. WE'RE THE ONLY PACKAGING COMPANY THAT IS BACK-INTEGRATED TO ITS RAW MATERIALS. IN BAYPORT, TEXAS WE PRODUCE OUR OWN POLYOLS, A CRITICAL FIRST STEP TOWARD PROVIDING NOT ONLY RELIABLE SOURCING BUT CONSISTENT, REPRODUCIBLE PACKAGING PROTECTION.

- **Carpenter Co. Richpak®** foams are designed to meet a broad range of protective packaging and material handling requirements. They are clean, non-abrasive and offer package designers and fabricators a variety of innovative opportunities.
- **Availability**—In addition to our extensive fabricator network, Carpenter Co. has multiple manufacturing plants around the world providing complete sourcing for all your packaging needs.
- **Superior Performance and Product Protection**—Provides the same or better protection using Richpak® proven benefits of extra strength and durability verses many alternative packaging materials.
- **Excellent Material Yield**—Wide widths and tall square blocks minimize scrap generated, further reducing material costs and less trim for disposal.
- **Extensive Fabrication Options**—Slit, cut and convoluted product options are available worldwide.
- **Technical Center**—Our ability to provide innovative packaging solutions is a result of our industry—leading investment in our research and development technical center. Our technical team is dedicated to providing you with drop curves, testing, consultative and most cost-effective packaging solutions.
- **Environmental Leadership**—Going green is not just a trend at Carpenter Co. We are leaders in reducing production waste by minimizing the quantity of materials used. We are dedicated to producing highly durable, safe and clean materials that are recyclable and totally CFC and HCFC free.
- **Industry's largest selection of densities and design colors.**
- **Easily converted using standard fabrication equipment.**
- **Reusable and recyclable through the Carpenter Co. foam return programs.**
