

Serene[®]

Foam

Sleeping on air never felt so good

Serene[®] foam was created by Carpenter Co. to offer the best in comfort and support. It is soft, yet versatile: it can be used for pillows, toppers or as a traditional comfort or transition layer for mattresses.

Its unique collection of attributes make for a superior product.

Supportive Air Technology[™] – Serene[®] foam is designed with billions of microscopic air capsules to enhance support while reducing pressure on sensitive areas of the body.

Serene[®] foam minimizes motion transfer across the sleep surface.

Unlike memory foam, Serene[®] foam is not temperature sensitive, remaining plush and comfortable throughout the night.

Exceptional performance – reduces pressure
