

Polyurethane Systems for Construction

A WORLD LEADER IN POLYURETHANE CHEMISTRY

Here at Carpenter, our experts formulate our 2-component polyurethane systems to meet the market needs and the ever-changing regulatory landscape.

Carpenter's polyurethane systems provide exceptional performance in:

- Insulated panels
- Decorative moldings/ millwork
- Concrete slab lifting
- Garage & entry doors
- Adhesives & sealants
- Tracks & playground surfaces

Additionally, we are able to formulate unique systems to meet your specific requirements.

Our polyurethane systems are produced at our sites in IN, MI, TX & VA.
